GOVERNMENT OF MEGHALAYA

COMMERCE AND INDUSTRIES DEPARTMENT

*Meghalaya Industrial and
Investment Promotion Policy*
(MIIPP) - 2012

A. PREAMBLE

Meghalaya with its conducive environment for investment coupled with untapped potentialities, is set to be a major investment destination. Stable Government policy, State's own attractive and balanced investment policy supplemented by Government of India's NEIIPP, 2007 Policy have opened windows for inflow of huge investments in diverse fields enabling the State to register steady growth rate.

The New Industrial & Investment Promotion Policy is designed to facilitate investments in new sectors across the State and thus ensure accelerated and sustained growth. The Policy focuses to attract, facilitate and promote wider expectations and high end investment.

Meghalaya with its special/unique land tenure system will require to adopt appropriate policy for facilitating availability of land for investment which will provide adequate safeguard in this regard. There is an urgent need to promote investment in backward and difficult but resource rich areas. Therefore the policy provides additional incentives and support for such investments.

Investment through such policy will have to ensure that the benefit percolates down to all sections of society through its inclusive and sustained growth projections. Aggressive promotion of Micro and Small Entrepreneurs will have a multiplier effect on the overall investment scenario.

B. BACKGROUND OF THE POLICY

The 1st Industrial Policy of the State of Meghalaya was framed in 1988 and the 2nd Policy in 1997. The Policy of 1997 is still in operation today and is supplemented by the N.E. Industrial Policy announced by the Govt. of India in 1997. During this period 15 years or so, the State could attract quite a substantial investment and becoming one of the leading States of N.E. Region making a mark as prominent investment destination. The State could attract investors from Jammu & Kashmir, West Bengal, Jharkhand U.P and Assam etc. A number of power intensive industries like Steel & Ferro Alloys, Cement Industries etc have also been set up and some more are in the pipe line capable to meet the demands of entire N.E. Region as well as neighboring countries.

However, due to inadequate infrastructural facilities for drawing power from the National Grid, the power situation in the State began to affect the industrial production since 2005, which demanded a policy-shift to address the crisis and bring back steady rate of growth in manufacturing sector.

Another important paradigm shift was observed in the Central Policy of Industries Promotion. Government of India announced 'MSMED Act' to be made operational with effect from 2nd October 2006 all over the Country and similarly approved a package of fiscal incentives and other concessions for the North East Region namely the 'North East Industrial and Investment Promotion Policy (NEIIPP), 2007', effective from 01.04.2007. The rate of growth of Service Sector was acknowledged by the Government of India by giving "INDUSTRY STATUS" to the service sector. This will go a long way in framing the States' Industrial Policies all over the Country.

It is, therefore, necessitated to frame the 3rd and the New Industrial and Investment Promotion Policy for the State of Meghalaya.

C. OBJECTIVE OF THE POLICY

The Objectives of this Policy are as follows :

1. To promote investment in all sectors
2. Generate employment opportunities for the local people in the industries and allied sectors.
3. To provide special incentives for promoting local Entrepreneurs in setting up of micro, small & medium manufacturing and service enterprises.
4. Encourage setting up of export-oriented Agro & Horticulture processing unit.
5. Develop human resources and bring about improvements in the quality of life by promoting industries in sectors where the state has comparative advantage.
6. Achieve a balanced and growth oriented development covering the entire state through promotion of village and small scale industries.
7. Create a conducive environment for industrial development by creation of the basic Infrastructural facilities and by setting up of industrial areas, growth centre and export promotion industrial park.
8. Promote local interests through joint ventures with external investors so as to facilitate technology transfer and capital flow by a package of suitable incentives.
9. Encourage need based development of local entrepreneurial skills through intensive motivation and training programmes at District, Sub-division and Block levels.
10. Provide guidance to prospective entrepreneurs by building up a data bank of project-profiles and other connected information. Special support to local entrepreneurs will be provided, and monitoring will be done to enable them to be successful.
11. Simplify rules and procedures by providing a single-window clearance facility for all investment proposals as applicable.
12. Promote the setting up of ancillary units for catering to the requirements of large and medium scale industries.
13. Identify sick units that can be made viable and provide a comprehensive package of assistance for their revival.
14. Promote and encourage high-value, low-volume products, in view of the transportation-bottlenecks in the State.
15. Encourage Research & Development of Traditional medicine.
16. Encourage Vocational Training as a means of alternative employment opportunity.
17. To promote setting up food processing units including breweries/distilleries units in order to encourage local farmers to grow Barley, Maize, Wheat, Rice, Sorghum and all types of fruits so as to boost the agro economy of the State.
18. Promote Tourism, and make Meghalaya a tourist destination.
19. Promote IT as industries.
20. Encourage selective medium & large industries with captive power generation across the State ensuring equal development and ecological balance.

21. Promote first generation entrepreneurs. Government will encourage setting up of Entrepreneurship Development Institute by private or in PPP mode.

D. SALIENT FEATURES OF THE INDUSTRIAL POLICY.

The following are the salient features of the Meghalaya Industrial & Investment Promotion Policy :

1. State Government believes in promoting private enterprises for speedy economic development of the State. The Government also stands committed to ensuring the healthy growth of existing industries. For this purpose, Government will ensure optimum number of industries by not permitting excess in any specific sector, thereby ensuring sustainability of existing business.
